Applications:

Ice Cube Tray is a great product for making ice cubes. It is made of high-quality plastic or silicone material, which is durable and safe to use. The temperature range is from -40°F to 230°F, making it suitable for both refrigerators and freezers. The Ice Cube Tray is also non-stick, making it easy to remove the ice cubes from the tray. It is available in different sizes, ranging from 6 to 60 cavities, so you can choose the best one for your needs. With its lid, it is easy to store the ice cubes safely and for a longer period of time. From making ice cubes for drinks to freezing food, Ice Cube Tray is a great product for all your needs.
